

`Segmenter::applyThreshold`

```
graph LR; A[Segmenter::applyThreshold] --> B[Clip::height]; A --> C[Clip::width];
```

A diagram showing a central node on the left, a gray rectangle labeled `Segmenter::applyThreshold`. Two blue arrows originate from the right side of this rectangle. The top arrow points to a white rectangle labeled `Clip::height`. The bottom arrow points to another white rectangle labeled `Clip::width`.

`Clip::height`

`Clip::width`
