

Recognizer.hpp

```
graph BT; maincpp[main.cpp] --> recognizerhpp[Recognizer.hpp]; recognizercpp[Recognizer.cpp] --> recognizerhpp;
```

A diagram illustrating the relationship between three C++ files. At the top is a gray rectangular box labeled 'Recognizer.hpp'. Below it are two white rectangular boxes: 'main.cpp' on the left and 'Recognizer.cpp' on the right. A blue arrow points from 'main.cpp' up to 'Recognizer.hpp', and another blue arrow points from 'Recognizer.cpp' up to 'Recognizer.hpp', indicating that both source files include the header file.

main.cpp

Recognizer.cpp
