

`Segmenter::findLineMarkers`

```
graph LR; A[Segmenter::findLineMarkers] --> B[Clip::height]; A --> C[Clip::width];
```

A diagram showing a central node on the left, a gray rectangle labeled `Segmenter::findLineMarkers`, with two arrows pointing to two white rectangles on the right. The top arrow points to a box labeled `Clip::height`, and the bottom arrow points to a box labeled `Clip::width`.

`Clip::height`

`Clip::width`
