

NessieException.hpp

```
graph BT; Clip[Clip.cpp] --> NessieException_hpp[NessieException.hpp]; NessieException_cpp[NessieException.cpp] --> NessieException_hpp; Recognizer_cpp[Recognizer.cpp] --> NessieException_hpp;
```

The diagram illustrates a header file dependency. At the top is a gray box labeled 'NessieException.hpp'. Below it are three white boxes: 'Clip.cpp' on the left, 'NessieException.cpp' in the center, and 'Recognizer.cpp' on the right. Three dark blue arrows point from each of these bottom boxes up to the 'NessieException.hpp' box, indicating that all three source files include this header.

Clip.cpp

NessieException.cpp

Recognizer.cpp
