

Shape.hpp

```
graph TD; A[Shape.hpp] --> B[vector]; A --> C[utility];
```

A diagram illustrating the inclusion of headers in a C++ file. At the top is a gray rectangular box labeled "Shape.hpp". Two dark blue arrows originate from the bottom edge of this box. The left arrow points to a white rectangular box labeled "vector". The right arrow points to another white rectangular box labeled "utility". All boxes have a thin gray border.
